b. Noted that General Vern Mudge was retiring from his position as Advisor to the Senate Armed Services Committee and would be replaced by Col. Bellemux. Mr. Kirkpatrick said that during the conversation he had with Mudge yesterday it had been suggested that Mudge take a trip with Senator Byrd to Europe during which the Senator be given an opportunity to inspect selected CIA activities. The Director approved and said it might be well if the suggestion for this trip come from Senator Russell.

c. Noted we had received a call from Senator Burkley's office regarding a female employee who had resigned and who intended to apply for reinstatement. Mr. Kirkpatrick said in all probability she will be turned down for physical reasons -- high blood pressure.

d. Reported that the reply to Dillon Anderson respecting one of our employees who had written to the President would be ready for the Director's signature today. The Director said he had spoken to [redacted] about this matter and desired that the reply be sent to him. Since this man is one of DD/I's employees the Director asked Mr. Kirkpatrick to brief Mr. Amory.

Mr. Amory:

a. Noted Nelson Rockefeller had requested a weekly all-source briefing during his vacation. The Director said we could not do this but should tell him if anything of importance takes place he would be informed.

c. Noted that Security had recommended disapproval of furnishing CIA telephone directories to the Department of State. It was suggested that DD/I might wish to make available to the "R" area in State, extensions of his senior officials. It was also noted that we now furnish CIA telephone directories to OCB and NSC. The Director said exceptions should not be made and directed that this practice be discontinued.
